

Healing for Eternity

I have done several medical-dental mission trips to Guatemala over the past several years. Each trip has been such an incredible experience. There are four people groups that I get to interact and serve with on the trip. First, I get to bring at least one of my children. This has been a blessing to serve alongside my children doing God's work and sharing the gospel with others. The second group is the medical dental team from the US. This has become a second family for me as we have come to know each other very well over the years. The third group are the missionaries and their families in Guatemala. This is a dedicated group of people who love to serve and spread the gospel of Jesus Christ. They are so filled with joy as they serve with us and serve the Guatemalan people. The fourth and final group are the Guatemalan people we serve. They are a beautiful people who are so thankful for the care they receive. This trip meets their physical and spiritual needs. A large number of people have accepted Christ as a result of this powerful ministry. I am so grateful to God to be a part of this ministry.

The delight of serving the Lord in Guatemala goes beyond helping the children with their medical needs to introducing them and their families to the Lord Jesus Christ! The Word of Life team has prayed for them, invited them to clinic and prepared the clinic, supplies, and food. God honors their prayers and work with life-changing salvation decisions! Using our medical skills serves as the draw for the families, and God's love during the clinic expressed by each team member leads the families by the Holy Spirit into God's family.
